

# PARKING UPDATE AT HAYWOOD STREET

Due to construction, Haywood Street's overflow parking is changing. We are now asking our companions to carpool and park in one of the following options:

1. **West Haywood Street** – There are 13 parking spots on the street. (You don't have to pay.)
2. **Boy Scout Building** – There is a parking lot behind the building and we are allowed to park in the back row next to the orange & white cell phone tower. There are 11 spots available here.
3. **ASAP** (Appalachian Sustainable Agriculture Project)– Drive through their parking lot to a grassy parking area below. There are about 10-15 parking spots here.
4. **Grassy lot behind Volvo** – There are about 10-15 parking spots available.
5. **Empty lot next to the brake shop** – There is a building for lease with an empty lot. There is a “Tessier Associates” for lease sign in the front of the lot. There are about 8 spots available.
6. **Elk Lodge** – Large parking lot with about 20 parking spaces. They ask that we are out by 2 PM.
7. **Sundays only - Isaac Dickson Elementary School** – You will have to walk across foot bridge.
8. **Sundays only - Affordable Muffler & Brake Shop**
